TECHNICAL REQUIREMENTS:

Under no circumstance shall any fixture be installed in a building lower than the front curb elevation or street centerline elevation, whichever is higher, unless special precautions are incorporated into the fixture installation to prevent surcharging of fixture from the sanitary sewer main from high flow or blockage. In any event the Sewerage Authority will not be responsible for any back-ups.

The Authority's approved Contractor shall perform all work related to the installation of the sewer lateral from the curb to the main, including all road restoration. The cost related to lateral installation and road restoration shall be passed on to the applicant, on a dollar for dollar basis. An Authority representative shall be present at the time of the lateral installation and the tapping of the Authority main.

The applicant, through the Authority, shall be responsible for all costs related to permits, including Road Opening Permit. Applicant shall be responsible for surface joining, during and after construction, and for all restoration.

All construction shall be in compliance with the LBSA Rules and Regulations.

Any details needed may be obtained from the Sewerage Authority.
